FAQ

1. No sound when connecting Carplay

- 1) Transfer fiber cable
- 2) Set AUX output on OEM system
- 3) If still no sound, connect AUX cable to aux port on the car (usually required for CIC system)

2. How to solve the echo when calling?

- 1) Dial any phone number, and keep the phone on
- 2) Enter "Setup", next is "Audio" and select "Aec Auto Setup".
- 3) Until the screen prompts "Finished", then hang up and the setup is complete.

3. When Carplay fails to connect or disconnects or black screen

Check as the following steps:

- 1) Restore network settings on the phone
- 2) Go to "WirelessDev" and then "BT Reset"
- 3) Change the wifi channel, restart takes effect
- 4) Check if the antenna is away from metal and close to the phone
- 5) Clear the Bluetooth connection record, re-pair and reconnect

4. When the OEM MIC can't work on Carplay

- 1) Turn off the Bluetooth connection with original bluetooth
- 2) Connect mic adapter cable (provided) with OEM MIC

5. When cannot answer the call by idrive

- 1) Turn off the Bluetooth connection with original bluetooth
- 2) Turn off the setting "Use car's BT phone"
